What happened to the CD 363 notes?

Explanatory notes:
I tried to indicate, when I was taking these notes on the tape recorder, if a title or subject was my own; such are indicated inparentheses. Sometimes I added an explanation to the subject indicated on the documents. In a few cases (mostly indicated, I hope), I recorded my subject but not the original one. I have made no attempt to get the form, spelling, etc. in their subjects correct, but they should be good enough to indentify the documents. A date in ()(indicated a handwritten or drafting date. "-" indicates no date or author on the documents; blanks may just mean I forgot to record the information.
